TERRES DE RÊVES

TERRES DE RÊVES — *Terres de rêves*, the dream world of Anita Le Grelle. What once started with a few ceramic plates and bowls has grown into an extensive collection of cups, mugs, plates, bowls and dishes in a variety of shapes, sizes and colours. The imperfections in the multiple glazes of the square, rectangular, oval, and round objects contribute to their 'earthly' beauty. The colours reverberate the mountain landscapes, seas, caves, and icebergs of Anita Le Grelle's dream landscape.

Anita Le Grelle was born and raised in Antwerp, where she also gained her degree in graphic design. After working in advertising for a while, she moved to London with her family. While raising her kids there, she also attended sculpture classes at the Royal College of Art until achieving a diploma there too in 2000. For years, her works have been on display at numerous exhibitions in Belgium and London. It was rather by coincidence that she ended up in the world of pottery in 2013. And how! In no-time, the demand for her creations became so great that she decided to continue along this path professionally: *Terres De Rêves* is both the name of her company and of her collection. Her sculptures reflect a deep-seated love for craftsmanship, creating and recreating, using and reusing, so that remnants of wax from a nearly burnt out candle can be reused to create something else; that is the unstoppable drive of Anita Le Grelle.
