

Divo
Dog Cushion

SKU:

C01-012-01-S/M/L, C01-012-02-S/M/L,
C01-012-03-S/M/L

Description:

The modern Divo dog cushion combines simplistic design with contemporary colours, making it the perfect choice for style-conscious dog lovers.

Designed with an exposed seam, and using a slightly structured fabric, the cushion adds a modern, textured look to your home.

Your dog will love this bed too. The inner cushion consists of a stable, high-resilience foam that remains elastic and keeps its shape, even with continuous use. As with all MiaCara cushions, a pre-formed hollow supports the natural desire of a dog to sink slightly lower in the middle of the cushion. The spine is cradled while the head is perfectly supported by the slightly higher edge.

The cover features a zipper so it can be easily removed and washed, or even replaced with a new cover if you want to give your room a fresh look.

For dogs who like their cushion extra cosy, we recommend pairing the Divo cushion with the matching Unica fleece blanket.

- Inner cushion: cotton blend fabric 60% Cotton/ 40% Polyester
- Foam parts: 100% Polyurethan
- Cover: 100% Polyester (Trevira CS)

Foam properties:

- stable and durable
- climatizing
- hypoallergenic
- permanently elastic

Care Instructions:

Inner Cushion: 60° C gentle wash cycle

The cushion filling is made of extremely soft, open cell foam. To obtain the excellent properties of this material in the long run, the cushion should be maintained and cleaned accordingly.

The best cleaning procedure for the inner cushion is to laundry it with a commercially available mild detergents at temperatures up to 60° C. It is not recommended to use highly chlorinated and chemically aggressive washing additives. A brownish discoloration of the foam can not be avoided, but has no effect on the quality of the foam.

After washing and rinsing please remove as much water as possible through the spin cycle. The inner cushion can be best dried by air on a rack. It can also be tumble dried at 90° C, but please avoid over-drying.

Please plump up the inner cushion regularly so that it retains its fluffiness and shape.

Cover: 60° C washable

The cover is washable at 60° C or can be dry cleaned. After washing, let the cover air dry on a rack. Please do not tumble dry. After drying, the cover can be ironed at low temperature.

Please note that by intensive use the surface of the fabric may be roughened and lint nodules can form (so called pilling). This cannot entirely be prevented and is therefore no reason for complaint.

For simple and uncomplicated cleaning in between, just vacuum the surface of the cover with an upholstery brush.
