

ROOS VAN DE VELDE

FOR

SERAX

Serax may have many years of experience in its segment, but the collaboration with Flemish artist and ceramist Roos Van de Velde has had an innovating effect in multiple areas. Indeed, for the very first time, Serax has been challenged to produce a collection in which imperfection, shortcomings and coincidence have become assets during the production process. In her Perfect Imperfection collection of porcelain, Roos deliberately goes in search of that perfect flaw. It is a never-ending quest, always taking on other forms and shapes. The result is like balancing on a thin wire: perfect imperfection.

“As a child, I dreamt of living in a house in which I had created everything myself. That is when my passion was born for turning the everyday, like a teapot, a plate, or a lamp, into something special. By looking at everyday objects in your surroundings more consciously, you start living differently.”
